

FraudSleuth

A proactive online search tool that aids in the detection of possible fraudulent activity regarding documents filed in offices where land records are maintained.

This valuable and necessary convenience can help combat fraud by allowing property owners to search their names at any time or by creating profiles to receive automatic notifications when a document is recorded containing matching criteria entered into their profile. This service is completely free and offered by the county in conjunction with CountyFusion, their online public records search.

FRAUDSLEUTH BASIC

- A quick and easy way to search the on-line public records to find recorded documents containing the name of a property owner
- Username/Password not needed
- Search by name and date

FRAUDSLEUTH PROFILES

- It allows a property owner to create a profile to be automatically alerted if a document is recorded containing their name
- More than one profile can be attached to the same username account
- Property owners can delete or deactivate their profiles
