

Home Health Care Skilled Care Agencies

Skilled Care Agencies are home care agencies that are Medicare certified and provide RNs, LPNs, Physical Therapists, Occupational Therapists, Speech Therapists, and Medical Social Workers for short, periodic visits to the home during a patient's recovery from an acute illness. Home health aids that assist with personal care are also available if one of the above "skilled" staff is providing service. Most types of insurances cover these visits for a limited time, but eligibility requirements must be met.

Eligibility: determined by qualifying diagnosis, homebound status, doctor's order for care plus doctor certifies has seen patient within past 90 days (face-to-face encounter.)

Fee: most insurance accepted.
