

Housing Homes for the Aged

Homes for the Aged offer private or semi-private rooms in a facility of 20 or more beds. They provide personal care, meals, and supervision for seniors (60 or older) who need assistance with care but generally are in fair health. A nurse is usually present part-time, sometimes full-time, or accessible for consultation. Residents must be able to walk (or use walker). Some facilities accept patients in wheelchairs if they can transfer from bed to wheelchair independently. Cost is private pay (neither Medicare nor Medicaid pay), but rent is often much less than nursing home rates. Homes for Aged are licensed by the state.

“*” = special memory unit available.

Adult Foster Care Homes may be another placement option. AFCHs provide private or semi-private rooms for less than twenty residents in a home setting. AFCHs provide room and board, help with bathing, dressing and taking medications, and are licensed by the State. Clients need to be ambulatory (able to walk.) A list of AFCHs is available on the website <https://adultfostercare.apps.lara.state.mi.us/> then enter Jackson in county dropdown box. Look for AFCHs that serve elderly or “aged” clients, not those for residents with mental illness or developmental disabilities.
