Family Division

Activities

Pursuant to a Cooperative Reimbursement Agreement with the State of Michigan Office of Child Support, the Family Division establishes paternity for children that are born out of wedlock in Jackson County. Pursuant to this agreement, the Family Division also establishes child support orders in those paternity cases and in child support cases where paternity is not an issue.

Strategic Plan Impact

- ✓ **Safe Community**

The child support program advances community safety by establishing paternity and child support orders for over 1,000 children in Jackson County each year. The benefits to the community are widespread in that it helps keep kids in school, daycare, and off the streets

- ✓ **Economic Development**

This program advances economic development in that a custodial parent who receives child support for his/her children will spend money in the community on food, clothing, shelter, etc...Further, some of these children will be able to go off state assistance with the financial support of both parents. Children will have more educational opportunities.

- ✓ **Healthy Community**

The child support program advances a healthy community. Children that are supported by both parents have better access to health care and more access to medical treatment. When children are better taken care of, they present less of a health risk to their peers at school and daycare.

- ✓ **Recreational & Cultural Opportunities**

When children are supported by both parents, they have more opportunities to engage in recreational and cultural activities. Financially, they have more financial resources available to them to allow them to engage in such activities and development.

Accomplishments

- ✓ With all of the budget challenges and cuts, we have managed to increase our efficiency and our output significantly. We are constantly working to streamline our daily functions and we are continually improving our establishment procedures. This results in more child support going to parents to support the children in Jackson County.

Prosecuting Attorney

- ✓ We have reduced our full time staff by 50% since 2003, and by 33% since 2008. We are obtaining more orders than in 2003, with less staff, and every year we increase that number. This amounts to more children being financially supported by both parents. The child support program is a necessary state and federal mandated program. It is imperative to the future of our children and our local economy to have these children supported by their parents.

Additionally, the Victim's Rights Division makes presentations to groups, schools, and other groups, and Facilitates Homicide Survivors Support Group.

Strategic Plan Impact

✓ **Safe Community**

The Victim Rights Unit is a state-mandated program charged with assisting victims of crime in the criminal justice system. The unit provides constitutional rights afforded to victims of crime through notifications, court assistance, referrals, restitution and all of the legal rights spelled out in the Victim Rights Act. The unit ensures that victims are treated with dignity and respect during the court experience.

✓ **Economic Development**

The Victim Rights Unit indirectly advances the objective of Economic Development through the recovery for victims who have suffered a financial loss as a result of crime. The Program assists businesses, citizens, organizations, schools and all entities in obtaining restitution for their losses. This is accomplished through helping victims accurately compile and report losses to the court, so that equitable reimbursement is a part of the final judgment. Follow up is also done to ensure victims receive their court ordered payments.

✓ **Healthy Community**

The Victim Rights Unit assists injured victims of crime through a variety of resources and referrals, thus contributing indirectly to the preservation of a healthy community. Financial assistance and referrals for both physical and emotional injury are addressed by the Victim Rights Unit. This is accomplished through application to the State of Michigan Crime Victim Services Commission to financially assist injured victims of crime by paying health care providers for victims who would otherwise be unable to seek treatment.

Prosecuting Attorney

✓ Recreational & Cultural Opportunities

The Victim Rights Unit works with crime victims of diverse cultural backgrounds and annually conducts a Tribute and Memorial bringing together all victims from the community. While crime is random and does not recognize cultural differences, we do. Staff accommodates and allows for the varied methods of grieving and loss with an emphasis on respect for any cultural expression.

Accomplishments

- ✓ 3,812 victims of crime were notified of their rights.
- ✓ 52% chose to exercise their rights from the arraignment thru the appellate process.
- ✓ 2,456 victims and witnesses utilized the victim rights waiting area.
