## Accomplishments

- ✓ The Adult Recovery Court Team was successful in securing a second three year SAMHSA Grant to provide additional funding for the Recovery Court Program. The total amount of the grant was approximately \$1 million dollars. They also secured a Bureau of Justice Grant, and continued grant awards for the State Court Administration Office. The program is able to service between 90 and 100 participants.
- ✓ The Alternatives to Act 150 State Placement Committee has continued to work with the Judges, DHS, and other community partners to explore and research less expensive placement options for our delinquent juvenile population under court jurisdiction. These efforts continue to be challenging because of reduced state funding for some of these

alternative programs, and the closure of others. These efforts still have resulted in great savings for the Child Care Fund.

- ✓ New video conferencing technology has been installed in all courtrooms and hearing rooms, and also at the Youth Center Detention Facility. These technology improvements have resulted in increased staff time efficiencies, safety and security, and have reduced transportation costs.
- ✓ The Community Corrections Office operation has successfully transitioned over to the Circuit Court and is currently overseeing several programs with the assistance of the MDOC Probation department, providing services to several hundred Adult Probation clients.
- ✓ The Court Public Satisfaction Survey that was developed by the Supreme Court Administrative Office and given annually to court house customers has yielded some positive results, including:
  - 93% indicated that they were able to complete their court business in a reasonable time.
  - 94% indicated that they were treated with courtesy and respect by court staff.
  - 90% indicated that they were treated with courtesy and respect by the judge/referee/magistrate.
